

Nature Explore Workshops

The Arbor Day Foundation and Dimensions Educational Research Foundation proudly invite you to two Nature Explore workshops devoted to reconnecting children with nature.

**Workshop Location: Shaw Nature Reserve
Hwy 100 and I-44 Gray Summit, MO 63039**

WORKSHOP SCHEDULE

Saturday, May 8, 2010

9:00 a.m. – 12:00 noon We Dig Dirt

Discover effective ways to facilitate meaningful infant and toddler learning experiences inspired by nature. Gain positive solutions for addressing some of the challenges of working with very young children outdoors. Many practical ideas for helping infants and toddlers grow up with a sense of wonder will be shared.

12:00 noon – 1:00 p.m. Lunch provided

1:00 p.m. – 4:00 p.m. The Arts and Nature

This workshop will help you discover how to help children express their knowledge and personal interpretation of the world in more meaningful ways. The Look-Move-Build-Sketch planning model is designed to help educators create multi-faceted art experiences.

This approach encourages children to work in many modes, reminding both teachers and learners (especially those with sensory integration challenges) of the many ways to experience new ideas and concepts. The projects explored during this workshop are inspired by nature and serve as another way to help children make deeper connections with the natural world.
