9:00 a.m. – 12:00 noon Learning with Nature

This interactive workshop emphasizes the need for children to have consistent time outdoors with an interested caring adult. This group discusses common barriers to preschool and elementary children's ability to create positive connections with the natural world and what parents and educators can do to counteract them. Discover engaging and practical hands-on ideas that can be infused throughout all areas of the curriculum to support the nature-child connection. This workshop will also provide a multitude of resource ideas to help you incorporate nature into both outdoor and indoor classrooms.
