

Ohio

2012 State Report

Ohio's State Tree is the Ohio Buckeye.

Ohio State Statistics

Active Arbor Day Foundation Members

in Ohio: **57,541**

Program in Ohio:

Tree City USA Communities: **244**

Total population served: **5,864,090**

Largest Tree City USA in Ohio:

Columbus, population 769,360

Smallest Tree City USA in Ohio:

Put-In-Bay, population 128

Tree Line USA Utilities: **5**

Tree Campus USA Colleges: **6**

Certified Nature Explore Classrooms: **2**

**Ohio celebrates Arbor Day
on the last Friday in April.**

Nature Explore Classrooms Are Changing the Lives of Children

Children today spend less time outdoors and are more disconnected from nature than ever before. At the same time studies show increasing rates of childhood obesity, diabetes, and behavior challenges. Addressing the problem is the growing Nature Explore program, a collaborative project of the Arbor Day Foundation and Dimensions Educational Research Foundation. Nature Explore provides comprehensive, field-tested resources to help educators, administrators, and families make nature part of the daily lives of children – at child care centers, schools, nature centers, parks, and at home.

Nature Explore Classrooms, in spaces large and small, continue to be designed and built across the country using field-tested principles in the Learning With Nature Idea Book (available at natureexplore.org). In Nature Explore Classrooms, children begin to understand the natural world around them, instilling a lifelong sense of wonder and a love of nature...creating the earth's next generation of tree planters and environmental stewards. To learn more about Nature Explore Classrooms in Ohio, please visit natureexplore.org/classrooms.

Ohio Members Plant 438,024 Trees

The Arbor Day Foundation's dedicated members are making a difference by planting trees in their communities across the United States. Our 57,541 Ohio members helped plant more than 438,024 trees across the state last year.

Kenneth Brown, a loyal member from Georgetown, Ohio, has been planting membership trees since 1995. He shared with us a photo of some of his favorite trees. With wonderful, dedicated members like Kenneth, Ohio will always have a strong and majestic tree presence.

Kenneth by his Red Oak and Green Ash trees he planted from the Foundation.

Our State and National Forests are National Treasures

FFrom coast to coast, they are more than our national forests. They are national treasures. They thrill us with towering majesty and inspire us with breathtaking beauty. They provide wood for our homes, habitat for wildlife, clean air, and drinking water for millions of us.

But, in recent years, record wildfire seasons have destroyed millions of trees in forests around the country. Many areas have burned so severely that replanting is necessary. Yet much of the U.S. Forest Service budget has been diverted to simply fighting these massive fires, with much less funding left for replanting. The Forest Service has identified a backlog of more than one million acres* of America's national forests that need to be replanted. And each year, with every wildfire, storm, or insect epidemic, the backlog steadily increases.

Our forests are our future. And you can help protect them... one tree at a time.

Ohio Tree City USAs Support Community Forestry

The Arbor Day Foundation's Tree City USA® program encourages, supports, and strengthens effective urban and community forestry programs in diverse communities nationwide through recognition, education, and publicity. From the humble beginning of the program 36 years ago, it has grown to be the leading community forestry recognition program in the country, with more than 3,400 designated Tree City USAs across America.

Tree City USA is thriving in Ohio because of the strong partnership between the Arbor Day Foundation and the Ohio Division of Forestry. Ohio boasts 244 certified Tree City USA communities. Last year, Ohio Tree City USAs spent a combined total of \$36,634,139 on their urban forestry budgets benefiting the more than five million Ohio residents who live in those communities. The dedication of Ohio's urban and community foresters, city officials, and citizens to planting and caring for trees in their cities and towns helps increase energy savings, clean the air and water, and beautify the entire state.

Tree Campus USA

College and Universities across the United States can be recognized as a Tree Campus USA college by meeting five standards developed to promote healthy trees and student involvement. By meeting the annual standards and being recognized as a Tree Campus USA college, the campus not only benefits the environment but instills pride in the students, faculty, and community.

The following Ohio colleges have been recognized as Tree Campus USA Schools:

- Kent State University
- Kent State University at Stark
- Ohio Northern University
- Youngstown State University
- Denison University
- University of Mount Union
