Gift Trees are grown in the Arbor Day Foundation's own Lied Greenhouse. The trees are packaged in a clear poly tube with black caps at each end. Each has a label displaying a beautiful picture of the full grown Gift Tree, and planting and care instructions printed on the inside.

Gift Trees retail for \$4 per tree, with a minimum order of 25 trees. These funds are returned to The Arbor Day Foundation to support our many wonderful programs, such as Tree City USA and Reforestation (dedicated to saving forests around the world).

Gift Trees can ship year round and the tree label includes instructions on growing them indoors until conditions permit outdoor planting.

WHEN YOUR TREES ARRIVE, KEEP THEM IN A COOL, DARK ENVIRONMENT, SUCH AS A REFRIGERATOR, UNTIL THEY ARE DISTRIBUTED.
