

Good, Clean Water: TREE CITY USA®

Into each life a little rain must fall. And what rains on our cities flows into what we drink.

The Arbor Day Foundation invites you to plant trees in your community so the water that flows into our rivers and streams will be clean and safe.

The trees in your town also provide shade and song and beauty, clean air, lower energy costs, and higher

property values. They are a source of life and a source of pride. Because when a town shows a commitment to planting and caring for trees, it can be a Tree City USA.

Tree City USA communities have one thing in common — they value trees and all that they do for us. Visit arborday.org to find out how to plant the right trees in the right place.

Support Tree City USA where you live.
