

## Tree Descriptions

**Sargent Crabapple** grows slowly to 6'-10' tall with a 6'-12' spread that exceeds its height. Profuse clusters of small, white, fragrant flowers in the spring are followed by 1/3"-1/2" red berries that persist into winter. Birds love the fruit. New leaves are light green, later turning a darker green.

**American Redbud** grows at a medium rate to 20'-30' tall with a 30' spread. Small, rosy pink spring flowers are followed by reddish-purple-tinged leaves that gradually change to a lustrous green in summer and a striking yellow in fall. The shiny reddish-brown 2"-3" seed pods remain on the tree throughout winter.

**Washington Hawthorn** grows at a medium rate to 25'-30' tall with a 25' spread. White late spring flowers are followed by 1/4" glossy red fruits that stay on the tree into winter. Leaves are reddish-purple when emerging, changing to dark green in summer, then to orange, scarlet, or purple in fall. The slender stems have thorns. *This tree has a high wildlife value.*

**White Flowering Dogwood** grows at a medium rate to 25' tall with a 25' spread. The dogwood is an excellent landscape choice for all four seasons. The showy, white spring petals are followed by glossy red 1/2" fruits that ripen in fall and linger into winter. Summer's dark green leaves turn red-purple in fall. This tree prefers partial shade and moist, acidic, well-drained soil. *This tree has a high wildlife value.*

**Japanese Dogwood** grows at a slow to medium rate to 15'-25' tall with an equal spread. Showy, creamy white spring flowers often turn pinkish with age. Raspberry-like 1/2"-1" pink-red to red fruit ripens in late summer to fall. The shiny dark green leaves turn an intense scarlet or purplish-red to purplish-orange in fall.

7191 – 10 Flowering Trees with Japanese Dogwood

Dear Member,

Thank you for your contribution to the Arbor Day Foundation and sharing our mission to inspire people to plant, nurture, and celebrate trees.

Your free trees are my way of saying thanks. They have arrived in a bundle. A color code guide is on the back of this letter to help you identify each individual tree after you've unbundled them. Complete planting and transplanting instructions are in the enclosed *Tree Planting Guide*. You may contact Member Services if you have any questions about your trees. More complete information about each tree can be found in *The Tree Book* or in the online Tree Guide at [arborday.org](http://arborday.org).

Because we want your tree-planting experience to be successful, your trees are guaranteed to arrive healthy and to grow, or they will be replaced within one year of shipment. If you need further assistance, please contact Member Services at [info@arborday.org](mailto:info@arborday.org) or 888-448-7337.

Best regards,

A handwritten signature in cursive script that reads "Cynthia A. Allgood".

Cynthia A. Allgood
