8736 - 5 Serviceberry Trees

SERVICEBERRY *Amelanchier canadensis*

Number of Trees: 5

The **Serviceberry** is an all-season beauty. Early in the spring, beautiful white clusters of blooms set it apart against the new green of spring. Vivid red-and-gold-hued foliage graces the landscapes in the fall.

The plump red berries are a favorite of birds in December. The berries are also popular for pies, preserves, and fresh eating.

Mature Height	15'–25'
Mature Canopy Spread	15'–25'
Growth Rate	Medium (13"–24" per year)
Sun Preference	Full Sun, Partial Shade
Soil Preference	Acidic, Moist, Well-drained
