Dear Member,

Thank you for contributing to the Arbor Day Foundation and for sharing our mission to inspire people to plant, nurture, and celebrate trees. Please enjoy these free trees as a sign of our appreciation.

Your trees have arrived in a bundle; please separate them before planting. Included is a guide to help identify your plants and ensure proper planting conditions. Complete planting and transplanting instructions are in the enclosed *Tree Planting Guide*, and more information is available online at [arborday.org/plant](http://arborday.org/plant) or by scanning the QR code below.

Because we want your planting experience to be successful, your trees are guaranteed to arrive healthy and to grow, or they will be replaced within one year of shipment.

<b>Growth Rate</b>	Fast (25" or greater per year)
<b>Sun Preference</b>	Full Sun, Partial Shade
<b>Soil Preference</b>	Acidic, Clay, Loamy, Moist, Rich, Sandy, Well-drained

**NOTE:** To train as a single-stemmed tree: Select the straightest and strongest stem to use as the trunk. Stake the stem. Prune out additional stems, leaving three to four branches on the upper fourth of the plant. Every spring, remove branches from the bottom three-fourths of the plant and prune top to desired shape. In addition to training the plant, prune it in early spring to remove non-productive growth and ground suckers. For larger flowers in shrub form, prune to 10 primary shoots.
