

# PARTNERS IN COMMUNITY FORESTRY CONFERENCE

Arbor Day Foundation

## 2022 Sponsorship Opportunities

November 16-17, 2022 • Seattle, Washington

THE 2022 PARTNERS IN COMMUNITY FORESTRY CONFERENCE is the country's premier annual urban and community forestry networking event. This unique conference promises to build partnerships among the diverse professionals and volunteers that play a collaborative role in the management of our nation's community forests.

Help support those working in urban and community forestry, as well as take advantage of an outstanding marketing opportunity, by becoming a sponsor of the 2022 Partners in Community Forestry Conference.

A Partners in Community Forestry sponsorship will:

- Increase your visibility and brand awareness
- Generate excellent publicity for your company
- Support those working towards greener communities across the country
- Help shape the future of collaborative partnerships in the management of our community forests

"The organizers curated an amazing lineup covering the intersection between science and management. They allowed ample time for sessions, and all presenters were clear with great visuals and incredible stage presence and delivery. **I can't think of a conference that I've been to in the last 15 years that was as impressive**, and that's a pretty tall statement from an academic!"

– Cayenne Engel

"The energy at this conference always **fills me with hope** for a greater, greener future."

– Meridith Perkins

### Who attends?

- Urban Planners
- City Arborists
- Parks and Recreation Managers
- Landscape Architects
- Nonprofit Directors
- Environmental Consultants
- Utility Arborists
- City Managers
- State Foresters
- Individuals who make decisions regarding the trees in their communities

Your sponsorship also supports the Alliance for Community Trees Day; the annual meeting of our Alliance for Community Trees Network. The network is composed of community-based organizations, volunteers, state urban forestry groups, and tree boards dedicated to improving the livability of their towns and cities through planting and caring for trees.

Alliance for Community Trees Day offers:

- Peer-to-peer learning opportunities
- Networking
- Support those working towards greener communities across the country

## Contact

Support the Partners in Community Forestry Conference and the Alliance for Community Trees Day while gaining invaluable marketing and networking benefits. Available sponsorship opportunities are listed below. To pledge your support today, or discuss other possible sponsorship opportunities, contact Lauren Weyers at [lweyers@arborday.org](mailto:lweyers@arborday.org).
