FLORIDA IS AMONG THE TOP 5 STATES IN TOTAL ECONOMIC FOOTPRINT AND QUALITY-OF-LIFE

ECONOMICS OF URBAN FORESTRY IN FLORIDA

Trees have a tremendous impact on local economies and our quality-of-life. Here’s a peek at how urban trees in your state are contributing.

39,017 people are employed as a result of urban forestry activities in Florida.

Communities in Florida enrolled in Tree City USA® invested an average of $8.32 per resident for tree planting and care compared to $3.00 per resident in non-participating communities nationally.

Urban trees in the state contribute $6.4 billion in community-wide environmental benefits each year, such as carbon sequestration, air pollution removal, and avoided stormwater runoff.

The urban forestry sector in Florida has an annual sales and employment footprint worth $4.4 billion.

Tree cover at private homes adds $2.0 billion annually to property values across Florida.

Findings are excerpted from the 2021 report, 'The Economic Footprint and Quality-of-Life Benefits of Urban Forestry in the United States.' The report quantifies economic benefits for calendar year 2017, the most recent year available for analysis.
