ECONOMICS OF URBAN FORESTRY IN OREGON

Trees have a tremendous impact on local economies and our quality-of-life. Here’s a peek at how urban trees in your state are contributing.

13,515 people are employed as a result of urban forestry activities in Oregon.

Communities in Oregon enrolled in Tree City USA® invested an average of $8.48 per resident for tree planting and care compared to $3.00 per resident in non-participating communities nationally.

Urban trees in the state contribute $2.6 billion in community-wide environmental benefits each year, such as carbon sequestration, air pollution removal, and avoided stormwater runoff.

The urban forestry sector in Oregon has an annual sales and employment footprint worth $1.4 billion.

Tree cover at private homes adds $604 million annually to property values across Oregon.

Findings are excerpted from the 2021 report, ‘The Economic Footprint and Quality-of-Life Benefits of Urban Forestry in the United States.’ The report quantifies economic benefits for calendar year 2017, the most recent year available for analysis.
